## GERMANS OCCUPY BRUSSELS; FRENCH VICTORY IN ALSACE.

*Republican Troops Reported to Have Captured Muelhausen  
From the Kaiser's Armies.*

*Emperor William Orders Resistance to Any Effort of the Japanese to Take Kiao-Chow.  
Considerable Outpost Fighting on the Russian Frontier—Gen. Joffre's Men  
Forced to Fall Back in Lorraine.*

[BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.]

**AMSTERDAM, Aug. 21.**—Advices received here late last night indicate that the King and Queen of Belgium are preparing to flee. With the Germans in Brussels the Belgians are making hurried preparations to defend Antwerp.

[BY ATLANTIC CABLE AND A. P.]

**PARIS, Aug. 20, 11 p.m.**—The German cavalry have occupied Brussels. This official announcement was made tonight. Strong columns are following up this movement. The Belgian army is retiring on Antwerp without having been engaged by the Germans. Along with the announcement of the fall of Brussels the official statement says:

"Our troops have met with brilliant successes in Alsace, especially between Muelhausen and Altkirch. The Germans retreating on the Rhine left in our hands many prisoners and twenty-four guns, six of which were captured by our infantry after a sharp struggle.

"In Lorraine, the day was less fortunate for us. Our advanced troops found themselves faced by exceptionally strong positions. They were forced by a counter attack to fall back in a body, which is solidly established on the Seille and along the canal from the Marne to the Rhine."

**LONDON, Aug. 21, 1:20 a.m.**—The Germans have at last occupied Brussels, but in Alsace they seem to be making no advance. The latest report is that the French have recaptured Muelhausen and it still seems true that after eighteen days of fighting, there are no German troops on French soil.

On Germany's eastern frontier there has been considerable outpost fighting, which would indicate that the Russians are completing their work of concentration. There has been no serious collisions in this region as yet, however. Austria is too much engaged with Russia and with the need of helping Germany to make much progress in her war campaign against Serbia. No news has been received of any naval movements, either in the North Sea or the Mediterranean.

The death of Pope Pius X will be made the occasion for another effort to bring about peace. It is stated that when the conclave meets in Rome to elect a new Pope it will send an appeal to the warring nations for peace and will ask the United States to aid in bringing about tranquility.

According to the few items of news which have been allowed to come from Berlin, something like normal conditions prevail in the German capital. The price of food is declining and, now the troops' movement has been completed, a resumption of general work on railways is beginning.

Confirmation has been received of the report that Emperor William has ordered resistance to any effort that Japan may make to seize Kiao-Chow.

Wireless Report.

## BRITISH WARSHIPS SUNK, NEW YORK "HERALD" SAYS.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

**NEW YORK BUREAU OF THE TIMES, Aug. 20.**—Under a seven-column headline, "Why the English Fleet Is Silent," the New York Herald, in its evening edition today printed the following statement in large type on its first page: "According to a definite report from a reliable source, the Herald's dispatch regarding the destruction of thirty-nine ships of the British navy by a German torpedo flotilla is correct. This fact is said to account for England's silence. Wireless dispatches to this effect were received at Sayville, L. I., today."

The border patrol.  
From the painting by Karl Peters. A stirring incident from the Napoleonic wars is here depicted with the fidelity of a German pencil. Much of the merit of the picture brought out by the color is lost in the reproduction, but the "action" is there. The border patrol has "winged" a man. Incidents like the one here pictured must be frequent if not every day occurrence now along the borders of the nations of Europe.

## JEALOUS OF AMERICAN PLANS TO BUILD UP MERCHANT MARINE.

*Maritime Nations of Europe, at War With One Another, View  
With Unconcealed Disfavor Efforts Making in United  
States to Benefit From Catastrophe Abroad.*

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

**WASHINGTON BUREAU OF THE TIMES, Aug. 20.**—President Wilson's advocacy of the bill to be introduced in Congress tomorrow for government purchase of merchant ships belonging to belligerents has aroused the jealous attention of the maritime nations at war. Earnest inquiries have been addressed to this government in relation to the matter. So far as can be learned, Great Britain and Russia have not registered a protest, but France has never recognized the validity of the sales of belligerent merchant ships to neutrals. Great Britain and Russia, according to the representations made, must be satisfied of the validity of the transfer, both by bill of sale and payment of a reasonable consideration. Neither of these belligerents, however, likes the prospect of the payment to the German line subventioned by the German government, of \$12,000,000, the amount which it is said will purchase all the Hamburg-American steamers now in American ports. Diplomats further object to the idea of government acquisition of the vessels on the ground that they will become national in character, in spite of the fiction of a private corporation, such as the Panama Canal Corporation, which runs vessels between New York and the Canal Zone. They point out that such vessels will be liable to examination for contraband and that they can only look to the United States for protection.

[Continued on Third Page.]

## INDEPENDENCE FOR FILIPINOS IS BROUGHT ONE STEP NEARER.

[BY A. P. NIGHT WIRE.]

**WASHINGTON, Aug. 20.**—Another step toward giving the Philippines independence was taken in Congress today, when the House Committee on Insular Affairs favorably reported the Jones bill, which would declare definitely for the first time the purposes of the American people as to the future political status of the islands. Representative Jones of Virginia, chairman of the committee, announced his purpose to press the measure for consideration at this session. A new feature of the bill is designed to meet the commercial paralysis of the archipelago resulting from the European war situation. At present all tariff and internal revenue tax laws for the Philippines are enacted by Congress. The proposed law would expressly confer on the Philippine Legislature the right to enact all tariff laws, except those which affect the trade relations between the United States and the Philippines. "The Philippine postoffice officials," Representative Jones said today, "must have means of supplementing their revenue just as we have in this country. At present their hands are tied and they can only look to the United States."

Diplomacy.

## HELP KEEP PEACE WITH JAPAN, CHINA ASKS UNITED STATES.

[BY A. P. NIGHT WIRE.]

**WASHINGTON, Aug. 20.**—Most significant of the day's developments in the European situation here was the inquiry of the Chinese government of the United States whether the latter would undertake the trusteeship of the territory of the Kiao-Chow, transferring it immediately from Germany to China. President Wilson and Secretary Bryan have scrupulously avoided this inquiry was understood to have been based on an acquiescence far involving the United States in any way in the situation and there is every indication that this attitude will be strictly maintained. China's endeavor to obtain the territory of Kiao-Chow and at the same time preserve neutral relations with Germany, Japan and Great Britain were manifest in dispatches from Peking. In any eventuality, China indicated clearly her intention of remaining absolutely neutral. Diplomatic dispatches from Europe [Continued on Ninth Page.]

## Duchess of Manchester Warns John Bull—Plenty Gold, Little Food, in England

ENGLISH DUCHESS PRAISES  
GERMAN MOBILIZATION.

Declares Kaiser Has Situation Well in Hand, Plenty of Food in Berlin.

Former Miss Helen Zimmerman of Cincinnati Says Great Britain Makes a Mistake if It Thinks It Has a Walkover and that Teutons Have Perfect Confidence in Fighting Powers of Their Army.

[BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.]

LONDON, Aug. 20.—The Duchess of Manchester, formerly Miss Helen Zimmerman of Cincinnati, O., returned to London last night, having taken sixteen days to get through from Germany. She says that England makes a mistake if it thinks it is to have a walk-over. The German war organization seemed perfect to her, and from all she could learn the mobilization was carried out with striking precision and success. "It is nonsense," she said, "to talk, as some do, of a food panic and street rioting in Berlin. The German government has the situation well in hand and the Kaiser has the enthusiastic support of the great mass of the German people in what officially disseminated statements declare to be his confidence in French and British attacks on Germany.

Equipped.

ESTIMATE GERMAN ARMY  
AT MILLION AND A HALF.

[BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.]

LONDON, Aug. 20.—Dr. W. H. Auwand of Minneapolis and Dr. Robert Riser of Chicago, accompanied by their wives and children, have arrived in London, after over a fortnight's experience in the theater of war and particularly between Liege and Aix-la-Chapelle. The adventures of these two American physicians included three days' work in a hospital at Verviers, Belgium, where German wounded were being brought.

The two doctors left Vienna August 3 for Ostend. They got as far as Welkenraedt, Belgium, where their train was stopped. They proceeded by wagon to Verviers, where they expected to take another train. They found, however, that a tunnel had been blocked during the night by the Belgians and that this was impossible. They remained at Verviers until August 11.

In Germany.

FRENCH ARMY AEROPLANE  
HIT NINETY-NINE TIMES.

LONDON, Aug. 20, 11:40 p.m.—Adolphe Pegoud, a noted French aviator, has returned to Paris from the war zone to get a new aeroplane. According to a Paris dispatch to the Exchange Telegraph Company, the wings of Pegoud's old machine were riddled by ninety-seven bullets and two shells when he made, with a military observer, a flight of 300 kilometers (186 miles) into German territory.

Capt. Fink, a military aviator, Pegoud said, had destroyed a hangar perched on a hill.

## IRREFUTABLE EVIDENCE.

As Usual "The Times" Printed a Greater Volume and a Greater Variety of Advertising in July Than Any Other Newspaper in America.

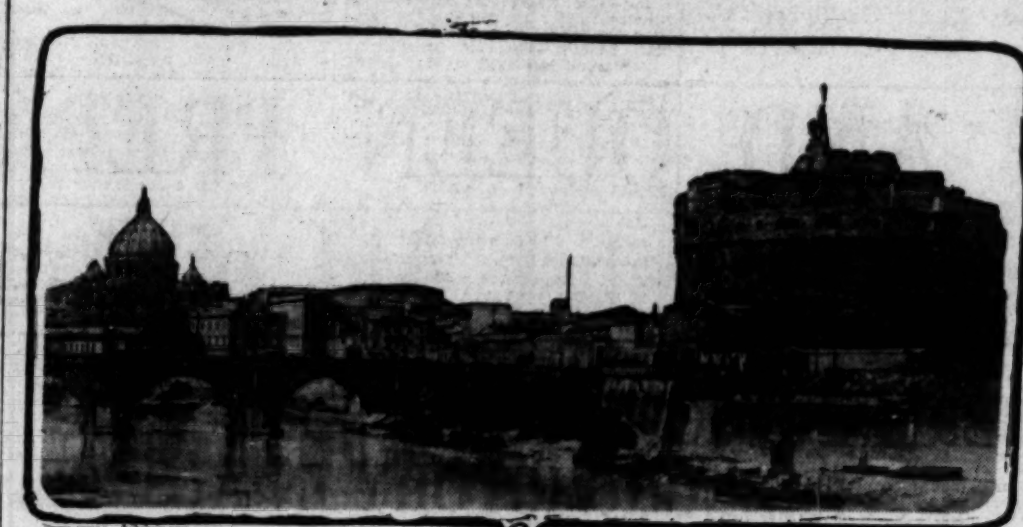

The following figures of the newspapers making the best record in the cities named bear further testimony to the fact that The Times gives its patrons greater advertising value than any other newspaper in the whole United States.

## Environments of the Vatican.

Castle and bridge of St. Angelo.

At the left of the picture is shown the lofty dome of St. Peter's in Rome, a little to the right is the Vatican, where the Pope breathes his last, and in the foreground is the picturesque bridge of St. Angelo with the picturesque castle at the extreme right. The picture was furnished by Mrs. May Whitney Emerson.

## Testament.

LATE PONTIFF'S WILL IS READ;  
LEFT NOTHING TO HIS FAMILY.

[BY ATLANTIC CABLE AND A. P.]

ROME, Aug. 20.—It is reported that the Pope left nothing to his family, but shortly before his death he arranged for life insurance to the amount of \$10,000 in favor of his surviving sisters. Nothing else goes to his family. The will of the Pope was read today in the presence of Cardinal Merry del Val, but it has not been officially made public.

The death of the pontiff has been the cause of intense grief to the Papal Secretary of State, who today could not refrain from tears, even in the presence of strangers. He said: "I have lost the one dearest to my heart. He was more than pontiff, more than master, he was my second father." Contrary to custom, the cardinals up to noon had not received an invitation to go to the Vatican for the first meeting after the death of the Pope. The delay was due to the absence from Rome of Cardinal Serafini Vannutelli, dean of the Sacred College, by whom such invitations were made. Cardinal Vannutelli was in Naples when he received the message from Cardinal Merry del Val announcing the death of the Pope. He took the night train for Rome, but shortly after leaving Naples a dynamite bomb exploded in the train, wounding ten of the passengers. The cardinal was not injured, but was obliged to wait for the next train.

## Pope's Body in State.

(Continued from First Page.)

body their crucifixes and medals and the monsignors laid for a moment on the dead fingers. Some, and those privileged, themselves, placed the crucifixes on the hands, and also kissed the feet, and in some cases Not a few of them were overcome with emotion and wept silently and when they left the chamber it was with the prayer that he would have eternal rest.

From 8 o'clock to 7 o'clock this evening the body lay in state in the throne room, to which all classes were admitted. A great crowd, clad in black, entered the throne room reverently, many of them weeping. The solemnity was rendered more pronounced by the majesty of the hall, the medieval uniforms of the guards and the drawn sword of the dignitaries. The body will be again exposed tomorrow morning from 7 o'clock to 8 o'clock. It will be taken in then to St. Peter's, where the people may view it.

Much interest centers in the succession of Pope Pius. There is a marked difference between the conclave after the death of Pope Leo and the one now to be held. Then the cardinals were divided into two factions, one for and the other against Cardinal Rampolla. Since Cardinal Rampolla's death, there seems to be no such division. The first time in many years the cardinals will enter the conclave with entire open hands.

"BLACK POPE"  
DIES SUDDENLY.

[BY ATLANTIC CABLE AND A. P.]

ROME, Aug. 20, 11:30 a.m. (via Paris, 9:15 p.m.)—Father Francis Xavier Werns, known as "the black pope," died early today from disease of the heart. He was equally anxious as to the fate of the Jesuits in France, Germany and Austria. Father Werns was General of the Society of Jesus, and it is considered doubtful whether a conclave for the election of his successor can be held during the war as the province of the Society is now in the hands of the enemy. He was 70 years of age and had been in Rome for some time. He was a man of great energy and was much respected by the cardinals and papal secretary of state.

## American Women's Relief Work.

[BY ATLANTIC CABLE AND A. P.]

LONDON, Aug. 20, 11:05 p.m.—The American Women's War Relief Society has leased a factory which will accommodate 200 workers, the intention being to provide employment there for that many needy women. They will make garments for soldiers and sailors in hospitals.

nor Parolin, the Pope's nephew, reached the chamber, weak and trembling with emotion. He was assisted to the side of the pontiff and kissed his hand and forehead.

## BROTHER MUCH AFFECTED.

The Pope's brother, Angelo Sarto, had not yet left Milan when he was informed of the pontiff's death. He burst into tears, exclaiming, "The will of God be done."

Formal ceremonies in connection with the death of the Pope occurred at an early hour in the morning on the arrival of Cardinal Della Volpe, who was received at the Vatican by the papal secretary. Part of the ceremonies consisted of official recognition of the Pope's death. Amid deep silence the chamberlain sprinkled the body with holy water, at the same time thrice calling the Pope by name—"Giuseppe Sarto." Then, turning to those who knelt by the bedside, he announced solemnly, "The Pope is really dead."

At 4 o'clock in the morning the private chapel masses were celebrated by Monsignor Bressan and Cardinal Biletti, the latter the only cardinal besides Merry del Val who never left the Vatican.

MET LATE POPE AS PRIEST,  
WOMAN TELLS EXPERIENCE.

MRS. MAY WHITNEY EMERSON of No. 416 South Burlington avenue mourns the death of the Pope not only as the Pontiff of the Holy Roman Church, but also as a priest of the church, to meet whom, in the capacity of priest, it was her pleasure in the fall of 1887.

Of the meeting Mrs. Emerson says: "In 1887 I spent half of October and all of November in Venice, sketching and studying art. Also, I was writing a book concerning the liberation of Italy from the grasp of Austria in the time of Garibaldi. In this book of mine was a certain colossal figure of Christ carved from a single block of wood, its head having been a portrait of the carver, who later earned the title of 'Liberator of Italy.' With another art student, I hunted the church searching for this figure, and one day in the Church of San Giorgio Maggiore, on an island opposite the Piazzetta, the priest, in reply to our inquiries, said he would 'ask Father Giuseppe, who is, by God's mercy, here this evening,' and who knew all about these things."

After a long wait Father Giuseppe appeared, greeting us with great kindness and listening intently while I tried to translate to him briefly the plot and purpose of the book, which had the enigmatic name of "Beare." The figure you have in mind is not here," said Father Giuseppe. "If it were in Venice I would know it. There is in this church a very beautiful carved crucifix in wood (which he showed us) and there can be no reason why you should not change this to your life-sized figure in the description if your plot requires it. It would be here if anywhere in Venice."

He told us that St. Ulrich in Austrian Tyrol furnished the world with its toys and the greater part of the figures in the church were made by him. He was previously unknown. He also suggested the subtitle of "Pauper, Patriot and Priest," as covering the range of his hero's possibilities or probabilities. Then he told us the story of the artist who once painted a saintly character from a model who came back to him after twenty years as a model for a head of Jesus. "In every man," said he, "are the elements of both the saint and the sinner, and the demoniac—and your Beazari was both, almost at the same moment." Still deeply interested, he suggested a motto which, freshly translated, stands: "A good deed, dying tongueless. Slaughters a thousand waiting upon that."

We spent the entire day in San Giorgio Maggiore, where is "The Last Supper" and "The Resurrection" of Titian, and at sunset we went to the top of the Campanile, where Father Giuseppe joined us and we three together saw the last pink flush fade from the distant Dolomites, and the lagoons and canals run in purple to the steps of the palaces.

At the door of the church, in part-

BEGGING FOR FOOD  
PLIGHT OF ENGLANDPay in Gold, Say American Shippers  
So Steamers Sail Light.Tons and Tons of Merchandise Withheld in New York  
Because There Is No Assurance that Drafts Will Be  
Honored Across the Water—Eastern Storehouses  
Choked With Supplies.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 20.—Every ship that sails out of New York for England these days sails light, though England is begging for food.

The liner Celtic left today with 5000 tons of foodstuffs in her hold when she might have carried 15,000 tons. The Kroonland left the other day with 4500 and room for 3000 more. The Adriatic, St. Paul, New York, Philadelphia and others of the thirteen ships of the International Mercantile Marine, which have departed for England since the war started, have ridden high in the water because of their lightness of cargo. Other lines tell the same story.

Paradoxically, the storage warehouses in and around New York are choked with supplies for which England is offering fancy prices. The reason why none of this food is going to England, officials of the trans-Atlantic lines assert, is because American shippers have no assurance that their drafts will be honored in England promptly and are unwilling to send their goods abroad with nothing in return.

Although in need of almost over-supplied, the trans-Atlantic lines are not making a diversion to British ports. The cargoes in bottoms bound for Europe are being held up by the war. Consequently, the trans-Atlantic lines are going to Great Britain with single shipments recently made to the Kroonland, the Adriatic, the Celtic and the Celtic.

For the first time in the history of the trans-Atlantic lines, English merchants are making a diversion to New York. The government's plan to purchase war goods from Germany is being formulated. The government is planning to purchase war goods from Germany.

THOUSANDS OF FRENCH  
MADE IDLE BY  
WAR.

PARIS, Aug. 20.—The problem of providing work for the large number of unemployed in France today occupied the Cabinet Council presided over by President Poincaré at the place of the Elysee. Louis Malvy, Minister of the Interior, reported that steps had been taken in collaboration with the local authorities and large employers to start work shops and labor yards.

All the old men and youths in the building trades are to be put to work finishing buildings under construction. Factories will be reopened and will employ limited forces. Far-reaching charitable work, supported by the government, is being ordered.

MILLINERS HARD HIT.

There has been almost complete cessation of orders in the dress-making, millinery, artificial flowers, lace and embroidery and related industries, which under ordinary circumstances employ over 1 per cent. of the labor force of France. Many of the large dress-making establishments are giving work to their staffs in the making of plain hospital garments for the wounded. This is done at their own expense.

The labor unions in the department of the Seine and elsewhere in France have opened vast soup kitchens where those who can pay may have a meal for 4 cents. Those who cannot pay are fed for nothing.

## ALLEGED CRUELTY CASES.

The government today decided to make thorough and comparative investigation of alleged German cruelties, the list of which is declared here to be increasing day by day. The record is to include all cases since the beginning of the tension between France and Germany. The inquiry

Emergency Measures

Project to Purchase Boats Being Shaped.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 20.—Emergency shipping legislation advanced further today, when the Senate Committee on Commerce and the House Committee on Commerce and Fisheries reported favorably on the bill to purchase boats for the United States Navy. The bill, which is now in the hands of the Senate Committee on Commerce, will call for the purchase of 100 boats for the Navy. The bill is expected to be passed by the Senate in the near future.

**AMERICANS IN STOCKHOLM.**  
Consul Reports Large Number Have Left for England and Consolation Is Relieved.  
WASHINGTON, Aug. 20.—From Stockholm the American Consul reported today that the majority of Americans already had left for England, and the reopening of the line between Gothenburg and London had served to alleviate much of the congestion in Norway and Sweden.

**WHY BELGIANS RETREATED.**  
According to British Officials Backward Move, Was to Cover Communications With Antwerp.  
WASHINGTON, Aug. 20.—An official explanation of the Belgian field army's backward movement towards Antwerp was given tonight in the following cablegram from London, made public by the British embassy: "The Belgian field army, based on Antwerp, has fallen back in that direction in order to cover its communications with that fortress. In anticipation that this might become necessary, the seat of government had already been transferred from Brussels to Antwerp, as Brussels is an undefended city and no longer the seat of government, the fact that the Germans may have occupied it is not of great importance. Moreover, the present position of the Belgian field army is a menace to the right flank of any further German advance westward."

**KANSAS PUSHES FOOD INQUIRY.**  
TOPEKA (Kan.) Aug. 20.—The Federal investigation of food prices, conducted here, has developed evidence of two combinations, according to United States District Attorney Fred Robinson.  
Evidence was found that there are organized efforts on the part of the retailers to boost the price of sugar as a result of the European war, he says. Evidence which seemed to give ground for the suspicion that there was an unusual combination among Kansas millers also was revealed, he says.

**ADVANCE IN BOSNIA BY MONTENEGRINS.**  
PARIS, Aug. 20, 6:20 p.m.—A dispatch to the Havas agency from Rome says the advance of the Montenegrins in Bosnia continues. The dispatch adds that Austrian aeroplanes flew over the mountainous region and dropped bombs on the Montenegrins. The bombs, however, did no damage.

**ALSATIANS LEAVE PARIS FOR FRONT.**  
PARIS, Aug. 20, 6:30 p.m.—Three hundred Alsatians left here for the war today. They first passed before the statue of Joan of Arc, and then before the Strasbourg monument in the Place de la Concorde, singing the Marseillaise and shouting "Long live France."

WINNING FIRST TO OUR PORT.

Trans-Canada Ship Due Next Week.

Shipping Suggested for Notable Event.

Angela the Destined Pacific Center.

Angela, the new trans-Pacific liner, is expected to arrive at Los Angeles next week. The ship is the first of its kind to call at the port, and its arrival is expected to be a notable event. The ship is owned by the Canadian Pacific Company and is expected to make regular trips between Los Angeles and Vancouver. The ship is 450 feet long and has a tonnage of 10,000. It is expected to arrive at Los Angeles on August 28th.

ANGELENO COMING HOME.

Cablegram from Yokohama Says Party Touring Orient Will Arrive the Last of This Month. Back From an Exciting Foreign Tour.

Adeline and Marguerite Ideler, a few minutes after their arrival in Los Angeles yesterday. They escaped from France and England with their parents, Mr. and Mrs. Emil Ideler, after the declaration of war by those countries and sailed on the steamship Philadelphia, which was held up by war vessels, threaded its way through mines in the English channel, and came near running entirely out of provisions before reaching New York.

SEE FIRST SMASHINGS BY FRENCH IN PARIS.

LEAVING France and England after those countries had declared war against Germany, seeing the mobilization of troops and witnessing riots in Paris and later in London, Mr. and Mrs. Emil Ideler, accompanied by their two daughters, Adeline and Marguerite, arrived late yesterday afternoon and went immediately to their summer home at Venice, Edwin Ideler, the son, remained in Berlin, when the family started for France, and all efforts to get in communication with him have been in vain. The two girls look upon their fortunate escape with amusement, and have "strange stories to tell. Loss of some of their new gowns and other wearing apparel, purchased in France and not allowed to go out of the country was merely one of the incidents that crowded themselves into the historic days of the beginning of hostilities. "Austria and Serbia were at war while we were in France," said Miss Adeline a few minutes after their return. "Our departure was scheduled for September 15 on the Philadelphia, but father telegraphed for an advance date, which later made it possible to secure transportation on the last vessel out of Southampton for America. "On the night war was declared the French proceeded to demolish everything in Paris that was of German origin or in German hands. Several cafes were smashed, and we were right near one of these and witnessed the wrecking. By good fortune we were able to catch a train out immediately after this for Charbourg and then got transportation to London. The clamor for reservations on outgoing steamers was fearful. People lined the streets for blocks around the steamship offices trying to secure passage. "When the Philadelphia left Southampton there were 1200 passengers aboard instead of the usual 600. Men and women slept on the decks. Three American millionaires, one of them a cousin of President Wilson, traveled in the steerage. Twenty-six women occupied one steerage cabin.

N. B. Blackstone Co. Autumn Suit Styles 3 Less Than Regular

We present today are advance fall models—not spring styles. Show all the late features, including the tunic, the velvet collar and smart broad trimming; the color line is in navy, navy, brown, taupe, wistaria, purple, black, and blue. Gabardines, serges and poplins are the favored fabrics.

Suits at \$19.65 \$32.50 Suits at \$21.65 \$35.00 Suits at \$23.35 \$37.50 Suits at \$25.00 \$39.00

Blouse Sale Fri. and Sat.

Blouses of chiffon, Georgette crepe and nets, white and light delicate colors and every one is of this season's style. To make room for the incoming lines we are closing out our high class garments out at the following reductions:

Blouses at \$16.50 \$17.50 Blouses at \$18.25 \$19.50 Blouses at \$20.00 \$22.00 Blouses at \$22.50 \$25.00

Waist Sale Fri. and Sat.

We offer a line of the most aristocratic waists. They embody all the new features in waistmaking. Black, white, pink, blue, and other colors. Cuffs and collars of white pique and other late features. The price is 50c per yard.

Belting 10c

35c to 50c Values. Beautiful belting in white or colors; styles formerly sold at 50c a yard will be sold today at 10c per belt length.

Chiffon Auto Veils \$1.00

These veils will protect your face from the sun and wind. They are made of fine mesh and are very comfortable. They are sold at \$1.00 each.

Two Out of Three.

YOUNG BURGLAR SHOT; GIRL TRAPS ANOTHER.

A 19-YEAR-OLD GIRL proved a heroine in the capture of a young burglar, dead to rights; a young physician dropped another with a revolver shot on the run, and a third burglar escaped by plunging head-first through a plate glass door, in a series of remarkable crimes, committed early last night.

Raymond Davis, a 15-year-old boy, No. 712 West Tenth street, was shot by Dr. F. M. Hull, No. 1135 South Hoover street, when he refused to halt while running from the home of Morris Orsatti, No. 1043 South Grattan street, where he had attempted burglary.

During the last four months Mr. Orsatti's wine cellar has been raided many times, and last night Dr. Hull and his father-in-law, Mr. Orsatti, with their wives, lay in wait for the expected burglar. They gathered in the house early in the evening and turned out all the lights.

Mrs. Hull was watching in front. Soon she saw someone ride on a bicycle several times, past the front of the house, then leap from the machine and start toward the cellar door. She sounded the alarm and her husband ran to the rear porch. The youth heard him coming and started to run. Dr. Hull called to him to stop, but in the darkness could not see who it was. The lad kept on go-

YOUNG BURGLAR SHOT; GIRL TRAPS ANOTHER.

ing so the doctor fired, the bullet striking young Davis in the head. The boy was immediately rushed to the Receiving Hospital for treatment. There he was recognized as a youth on probation.

He confessed and implicated two other lads, who were seen in hiding nearby, but escaped during the shooting. According to him they are Roland Coe, 16, of 848 South Grand avenue, and Hollis Thurston, Young Davis refused to say anything about the house, but was looking for them.

Davis's condition was found to be serious and possibly fatal. The bullet had penetrated the skull and the right side was paralyzed. He was removed to the County Hospital.

To Miss F. Harper, 19 years of age, Detektiv Ingram, Yarnell and Glenn give credit for the capture of a burglar thought to be a "Raffles" in life early last night in the residence of H. O. Wilson, No. 947 Magnolia avenue.

The Wilson family was out for the evening and Miss Harper, sitting on the front porch of her home, No. 939 Magnolia avenue, knew it. So when she saw a man walk to and fro in front of the Wilson residence several times her suspicions were aroused.

Then, when he walked up on the front porch and rang the door bell and, receiving no response, walked

## BEDECK SHRINE FOR WELCOME.

Auditorium a Blaze of Color for Fredericks.

Largest Auto Parade Known to Fill Streets.

Candidate to Speak Tonight in Ventura.

Decorators yesterday began the placing of flags and other settings in Shrine Auditorium in preparation for the big demonstration to be given by Capt. John D. Fredericks, Republican candidate for Governor, tomorrow night. No elaborate effects are intended, but a general patriotic atmosphere will be conveyed by the flags and banners.

Seats have been arranged to accommodate the greatest possible number in the belief that the big auditorium will be packed to capacity. If every seat is filled, as they are now arranged, the hall will hold about 4500 persons. Predictions are made that this number will easily be assured. Officers of scores of organizations that have endorsed Fredericks' candidacy are expected to be present and to contribute to the enthusiastic outpouring.

About 1200 automobiles, the largest number ever seen in a single parade in Los Angeles, will, it is believed, take part in the drive through the downtown streets that precedes the opening of the mass meeting at Shrine Auditorium. This number is assured from advance registrations and it is believed that several hundred more will probably be in use at the last moment.

Stegling Booth, grand marshal, has completed all his plans for the various divisions of this parade and the great line of motor cars will start eastward on Ninth street at 7:30 o'clock sharp. After the parade has passed through the Spring Street streets, crossed Seventh to Figueroa and Sixth to Jefferson, the participants will be in the Auditorium by 8:30 o'clock, at which time Capt. Fredericks' manager, Fred C. Fairbanks, will introduce Oscar Mueller as chairman of his committee. Mueller in turn will introduce Capt. Fredericks.

Additional bands were procured yesterday for the parade and a dozen or more large eight-seeing cars were donated for assistance in handling the crowd.

Capt. Fredericks, who spoke last night at an enthusiastic meeting at Santa Barbara, speaks tonight at Ventura and tomorrow will be escorted southward by a number of Ventura and Santa Barbara people. He will arrive in the city early in the afternoon and go to the place of the parade at Santa Barbara.

Things may look rosy in Los Angeles, but if the captain had been born south of Market up here, he could not be more popular.

Although the big Saturday night Fredericks rally at Shrine Auditorium practically winds up the primary campaign of the District Attorney for the Republican nomination for Governor, he has accepted an invitation of the old soldiers at Santa Barbara to address them at 2:30 o'clock Monday afternoon at Westgate. Capt. Fredericks himself is a veteran of the Spanish-American war and by reason of his military standing, has hundreds of friends in the Soldiers' Home.

WARE THE BOHUNKS. ORANGE COUNTY IN ACTION. As a means of warning Republicans against voting for "Progressives" who have forced their way into the Republican ranks, the Lincoln Republican Club of Orange County has given its endorsement to a number of real Republican candidates for office.

At a meeting two weeks ago the club gave its endorsement to the candidacy of Capt. John D. Fredericks for the Republican nomination for Governor, to J. R. Knowland for United States Senator and to J. C. Needham for Congressman. Yesterday the club announced its endorsement of the following additional Republican candidates:

For Lieutenant-Governor, A. L. Rhine; for Secretary of State, Frank C. Jordan; for Controller, J. E. Stockwell; for Treasurer, E. L. Head; for Attorney-General, John C. Catlin; for Surveyor-General, Frank E. Wright. At the meeting, which was presided over by Walter Eden, the club's president, Samuel Amor, a Civil War veteran of Orange, delivered an address.

Indorse Complete Ticket. The Monrovia Republican Club last night indorsed a straight Republican ticket, with Capt. Fredericks at the head for Governor. Other indorsees are A. L. Rhine, Lieutenant-Governor; Frank C. Jordan, Secretary of State; James Edward Stockwell, Controller; C. D. Swan, Treasurer; John C. Catlin, Attorney-General; Frank E. Wright, Surveyor-General; Samuel R. Shortridge, United States Senator; Frank C. Roberts, Congress, Ninth District; Walter Bordwell, Chief Justice Supreme Court; F. H. Hopkins, County Assessor; W. J. Ford, District Attorney; William A. Hammel, Sheriff; Edward Hyatt, Superintendent Public Instruction; W. P. James and Lucien Shaw, Associate Justices Supreme Court; N. P. Conner, presiding Judge Second Appellate Court. President H. J. Evans was in charge of the meeting.

Address at School. School teachers and parents gathered at the Fifty-second and Hoover

street school last night to hear an address by Chief Deputy District Attorney W. J. Ford, who is a candidate for District Attorney. Mr. Ford's children attend this school, and they have made a vigorous campaign for the father in that district. Some time ago Mr. Ford's seven-year-old son was cautioned by the police not to nail his father's posters on the telegraph poles, and since that time the youngster has been advertising his father's candidacy by making a house-to-house canvass and by personal talks with his schoolmates. Mr. Ford's address was not on political matters, but he told the relation between parents and the duties of the District Attorney's office.

Woman Candidate Wins. Mrs. Ella F. Meeker, Republican candidate for the Assembly in the Sixty-first district, won a large audience at the Union High School at Glendale last night. That she will be nominated with ease is the consensus of opinion in the district. A dozen other candidates attended the meeting, which was enthusiastic.

At Soldiers' Home Tonight. The Soldiers' Home will be the battleground tonight for scores of Republican candidates who will hold a political soiree. Among those present will be Mrs. Helen K. Williams, Republican candidate for Lieutenant-Governor, and the old soldiers have long been interested in meeting her and hearing what she has to say.

Nails Campaign Lie. The Law Students' Craig Club, composed of more than 400 students of U. S. C. Law School, a large extended meeting held last evening at club headquarters in the Tajo building, denounced the statement published in a morning paper that the bar and the bench throughout the district favor another candidate for presiding judge of the District Court of Appeal. The resolution adopted reads in part as follows: "To attribute such action to the judiciary is not only false but an insult to every judge in the district and to the public who are in indication points to the fact that not less than 90 per cent. of the attorneys favor Judge Craig's candidacy."

Candidate Phillips Here. W. W. Phillips of Fresno, Republican candidate for State Treasurer, reached Los Angeles yesterday to wind up his campaign in Southern California. Mr. Phillips is president of the Fresno Chamber of Commerce, and he says that if he had as much confidence in his own success at the polls as he has in the success of the Republicans, he would not work for any more votes. He is not only believed by Capt. Fredericks to be a majority winner, but he is believed by the majority of the Republican votes cast, but will defeat Johnson in November. Mr. Phillips will remain here a few days to put the finishing touches to his campaign.

Political Field Cleanings. The "meeting pot" at Hooker garden today was one of the most interesting of the week. It will be concluded in time for the Fredericks rally at the Shrine Auditorium in the evening.

Eliza Tupper Wilkes, Mrs. W. C. Tyler, Lorin A. Handley and Charles E. Barrett spoke last night at the Alexandria, before the Women's Phelan Club. Mrs. Force Parker, president, presided. The club held a meeting at which time Capt. Fredericks' manager, Fred C. Fairbanks, will introduce Oscar Mueller as chairman of his committee. Mueller in turn will introduce Capt. Fredericks.

George L. Hooten, Democratic candidate for Congress in the Ninth District, campaigned through the foothill towns yesterday. Today he will meet the unopposed in Covina, Alhambra and Whittier.

Judge William M. Conley, candidate for chief justice of the Supreme Court, returned yesterday for a campaign in and around San Francisco. A Republican rally will be held tonight at St. Francis Hotel, where Norman and West Jefferson streets, where Republican and non-partisan candidates will speak. Mrs. Clara Shortridge, Republican candidate for United States Senator.

The Los Angeles Club of the Willshire district will give a programme this evening at No. 203 Western avenue, when a number of speakers will be provided. The meeting is in the interest of the candidacy of Frank G. Tyrrell for Superior Judge.

A group of proxy lieutenants entered the primary fight for the advertising they expected to receive, will not be able to realize upon their investment after next Tuesday.

Bernard Fry, candidate for Supervisor in the Third District, will speak at the next meeting of the Willshire Club against the 1913 street improvement act.

A report of the Municipal League on candidates for county offices, all of which are non-partisan, was received through the mail yesterday by voters. One of the men especially commended was the Spanish-American war and by reason of his military standing, has hundreds of friends in the Soldiers' Home.

## LONG FIGHT IN FEDERAL COURT.

INDICTMENT IN GRAHAM CASE HELD SUFFICIENT.

Important Point Now to Be Determined Is Whether or Not Millionaire Defendant Was in Nashville at the Time Alleged—Case May Go to Supreme Court.

The proceedings on the petition for the writ of habeas corpus in behalf of B. F. Graham, reputed millionaire of this city, charging him with securing \$3000 from the late Thomas P. Ayres of Nashville in 1907, in connection with a deal involving \$550,000, is likely to be long drawn out before a final decision is reached. It is announced that if the decision of Federal Judge Ross, sitting in the case, is adverse to Graham, the case will be carried to the Supreme Court.

The defendant was in court yesterday surrounded by a company of female friends, including his wife, and a cordon of detectives. These detectives have been in Graham's employ for the past twenty-six days, but so far as known there has arisen no occasion for the exercise of their powers under the special agents, Lord and Brent, who are here with Harry S. Stokes, the attorney who is pushing the case in behalf of Gov. Hooper.

The return to the petition for the writ was presented by Earl Rogers, who is one of the associate counsel for the State of Tennessee, and with it Mr. Rogers read the judgment of Gov. Johnson, upon which was based the action of the executive in issuing the warrant of rendition.

Harry S. Stokes of Nashville, when asked by the court what foundation there was for the indictment against Graham was a fugitive from justice, replied that the evidence would show that Graham made false representations as to ownership of the timber licenses at the table of Col. Ayres in the city of Nashville, on or about July 27, 1907, but that the \$3000 was paid to him by the State of Tennessee on the day specified up a part of the payment of \$10,000 on the contract that is acknowledged by a receipt from Graham.

## Saw the Beginning.

(Continued from First Page.)

In other cabins they slept in relays, five or six persons using the same berth. "And they wouldn't even dance, they were so excited all the way over," chimed in Miss Marguerite, who had learned some of the latest steps abroad.

"Two warships stopped us just after we got through the English channel," related Miss Adelaide. "One of them was an English battleship and the other a French cruiser. After that we saw a lot of French battleships, but were no further molested."

"Through the English channel we traveled at the rate of only two miles an hour," said Miss Marguerite. "A British warship guided us past the mines and the women were all just ready to faint, and I guess some of them did when the French boat sent a shot across our bows. They thought we were going to be sent to the bottom and some of them screamed like mad."

"Two days before we arrived in New York the butter gave out and then other provisions began to be short. The Farmer of the Merchant Liberty made everyone forget troubles, and it was a happy continuation of the voyage. We were down the gangplank. Not many were worried about what they had to declare to the customs office."

The aged Mrs. Downing recaptured the affections of the young doctor. It is alleged, although in the complaint the declaration is made that the elderly woman was suffering from ulcers on her brain and was not responsible for her actions.

DEEDS AWAY PROPERTY. During the last of December, 1913, Mrs. Downing deeded away her and another residence property. Instead of giving these properties to her young doctor, she gave them to the young doctor's sister, Miss Jessie Miller Douglass. The Inglewood-street property is appraised at more than \$15,000 and the property at Eighth and Gramercy streets at \$8000.

It is alleged that the doctor did not wish to have the property deeded to him, because at that time, the property settlement incidental to his divorce from his wife was not completed, and he did not wish to have those properties become involved in his first wife's efforts to secure a complete.

Early in January, 1914, at the suggestion, it is declared, of her medical adviser, Mrs. Downing decided to take a trip to Europe, where she was doing so, according to the complaint, she executed a will in which she left her property to her relatives, and instead, made a new will giving her entire property, with the exception of \$1000, to Dr. Douglass. She left for Europe in company with the doctor and a nurse, but returned to Los Angeles shortly afterwards, and there died. Dr. Douglass reported that she died from a cerebral hemorrhage. Her body was brought to Los Angeles, where the doctor performed an autopsy, and within six hours after the body arrived in the city, it was cremated.

Since then, Dr. Douglass has continued to reside in the Downing residence, where he was deeded to him, has purchased a new automobile, a motor boat and a luxurious motor car, and is most liberally provided for. The court action, which promises a sensational struggle, were brought by Attorney Clyde Cate, as one of the heirs, with Henriette Dyett, a niece of Mrs. Downing, who is seeking to break the will on the ground that the executor, Attorney John Foley, did not notify the heirs. And Dr. Douglass and his sister are enjoined from disposing of or encumbering any of the property pending a settlement of the court action. The court action was brought by Judge Reeve's court November 18.

Dr. Douglass asserts that his actions have been entirely blameless, that the aged couple learned to love him and wished to show their love by making him their heir. He denies in any way having wrongfully influenced either of them, and declares that the integrity of his actions, both as a doctor, and as a friend, is above question.

Little Pickets of the Sky. [American Magazine:] Far above aeroplanes or free balloons soared the balloon, or, as it were, the balloon, that has been known to reach a height of twenty-five kilometers—eighteen miles. These little pickets of the sky are sent out unattended; they are small balloons from which hang the recording instruments. Over all goes a parachute. When the balloon sends a report, the parachute is released and goes upward, and the parachute clings to it like an outer covering; but when at an immense height the lack of air pressure finally allows the expanding gas to burst its containing envelope, the parachute is left to expand and float the instruments safely to earth. ## LETTERS TO "THE TIMES."

The Times prints strong, clear, bright expression of opinion on current subjects, timely, pertinent and accurate. It is a pleasure to read it.

From a Woman Attorney.

LOS ANGELES, Aug. 19.—[To the Editor of The Times:] I want to say a word for Mrs. Helen K. Williams, candidate for Lieutenant-Governor.

Hereafter I have not been in favor of a woman for this high office. To

day I met Mrs. Williams, and after talking with her for more than two hours my opinion has changed, and I can honestly say that she appears to me to possess every qualification, and she should receive the vote of every woman in the State.

It will be a travesty on the suffrage scheme if the women of California do not support Mrs. Williams for Lieutenant-Governor. The opportunity is before them of electing a member of their own sex to fill an office heretofore held by men, a woman who in my humble opinion has an intelligent grasp of national and State questions, a strong personality, and an alertness which if given the chance will bring further honor to her.

Those who have met her know her worth; those who have not have missed the opportunity of seeing a self-made, intellectual, courageous woman with high convictions.

I feel satisfied that the apparent sympathy on the part of some women in supporting Mrs. Williams for Lieutenant-Governor is due to the natural prejudice against a woman holding office—the fear that she lacks judgment, especially in dealing with a body of men as the presiding officer of the Senate—but after a close study of Mrs. Williams I can say that she lacks neither judgment nor strength.

For years she has been a student of parliamentary law, unconsciously training herself for dealing with national and State questions. She is sound, safe and sensible, having no faith, but is earnestly interested in certain forms which every woman in this State is anxious to see carried out.

Mrs. Williams is an honor to her sex, one of the most highly-developed women I have ever been my pleasure to meet. She should have the full vote of the women of California because she will make good.

GEORGIA P. BULLOCK.

They Made Damphools of Themselves.

VENICE, Aug. 20.—[To the Editor of The Times:] Some few days ago your local press chronicled the arrest of Santa Monica woman, recently from the East, for bathing in the surf barefooted and not otherwise clad in the regulated attire. This seems to the writer on the part of the solons of the city as "straining at a gnat and swallowing a camel."

Let anyone go among the bathers on any of your beaches and witness the disgustingly-clad men and women in bathing suits so suggestive of immorality and vulgarity. The latter is that a self-respecting community with any sort of proper regard for the morals, especially of the youth of both sexes, would for a moment give legal recognition to such an outrageous and offending public display of indecency.

Where are your suffragettes that no voice of protest is raised by them against this leper, so openly and flagrantly flaunted in your midst? A. H. G.

Blanket Assessments.

COLEGROVE, Aug. 19.—[To the Editor of The Times:] Large assessment districts to pay for small local improvements, have become quite common in this city; nevertheless they are unlawful—that is to say, so far as they include property not benefited by the improvement. Only such property as is benefited by the improvement can lawfully be assessed to pay for it. This is a rigid rule, sustained by all laws and statutes and by judicial decisions. To assess property beyond the region of special benefits is clearly unlawful, and yet the practice has been (because unchallenged) to assess property miles away from the improvement and far beyond any possible benefit from it.

The statute gives authority to make an assessment district in certain cases and that is construed as authority to declare any sort of a district, however large, and to include thousands upon thousands of lots miles and miles distant from the local improvement.

The absurdity of this practice need hardly be characterized. The actual damage to large sections of the city and to the city at large is beyond all estimate—it is enormous. This should not be said if there were any other way to stop it.

Regretfully, GEORGE T. COLE.

ASKED FOR MONEY TO PAY SELVES.

CITY COUNCIL FINDS EASY WAY TO BRIDGE A DIFFICULTY.

HIGH SCHOOL SITE.

At the meeting of the Board of Education yesterday, a communication from the City Council was read, notifying the members of the board that the city will pay their salaries

provided the board furnish the money. In other words, the Council states that in order to comply with the city charter, a school fund will be established for the purpose, if the Board of Education transfers to the Council \$4200 from its general school fund.

The question as to their right to make the transfer was referred to the county counsel for opinion.

President Baer of Occidental College and ex-Senator Flint, chairman of the board of trustees of that institution, appeared before the board to request that a decision be made within thirty days as to whether or not the old Occidental College site will be purchased for a High School for the Highland Park district. It is supposed to cost for \$150,000, which is much below its assessed valuation.

There is a strong pull in its favor, but several other sites have been presented, and the Board of Education hesitates at making the deal for fear the people of the district will soon be

disappointed. The old building, which, while fairly well suited for the purpose, are not up to the standard set by the board for the High School. On the other hand, the purchase of this site will enable the board to open a High School immediately, while the purchase of an entirely unimproved site will cause a necessary delay of a year or two.

The matter will be considered in committee of the whole.

TO OPERATE AT NILAND.

Application has been made to the State Railroad Commission by the Niland Water Company for authority to issue 5000 shares of common stock of a par value of \$10 each and \$40,000 of 4 per cent bonds. The company purposes to construct and operate a water system in the new Imperial Valley City.

## An Announcement From Our BOYS' DEPARTMENT

We wish to announce the arrival of NEW FALL STYLES in Suits for Boys and Young Men.

Right styles and right prices, and largest, best-equipped Boys' Department in the West to insure complete stocks and good service.

"Oliver Twist" Suits

We have this popular style in wool suits for fall wear, at \$5 to \$12.50.

Young Men's Suits

"Sampeck" and other suits in the new Tartan plaids, as well as checks, stripes and solid colors, wanted for fall.

\$10 and up to \$30

Special Offerings at Reduced Prices

1-2 Price

Boys' and Girls' Straw Hats at 1-2 Price

Khaki Suits

Light-colored tan Khaki trousers that were \$1.00 are now 65c. Coats to match these, were \$1.50, now \$1.00.

Realty Men Celebrate.

and William H. Akin as timekeepers. So eloquent were the efforts of the different orators that even the audience were observed to twist and turn in their chairs, completely up in the air as the various points were driven home. James R. H. Wagner, who advocated country lands as a simon-pure investment, was awarded the cup after a contest in which there was little to choose among several talkers.

ATMOSPHERIC CURIOSITIES.

Paint Fogs on the Coast of Peru, "Fire Ships" on the Bay of Chaleur and Lightning Rods in Andes. [Youth's Companion:] Cloud caps form on mountain tops when a current of moist air ascends the slope of the mountain, for the air cools as it rises and the moisture in it condenses. On the flanks of Mount Blanc, the whole series of phenomena is called the "Alpenglow."

PROVING REAL VALUE.

Conclusive Test of Superiority of an American Article as Compared With One Made in Germany. [Baltimore American:] In Buenos Ayres a few years ago an American salesman of plows wished to demonstrate to a local customer the superiority of his goods over that of a German competitor. The American Consul arranged for the test.

The German plow proved to be almost exact duplicates of the American implements in design and rather better in finish. Wasting no time in explanation, the American salesman called over a powerful peon and ordered him to swing with all his strength with a ten-pound sledge upon the share of one of the American plows.

The husky Basque spat upon his hands, hunched his muscular shoulders, and with a grunt, swung the wide circle and brought it down on the spot indicated. A note as clear as that of a bell rang out and the plow went bounding across the floor, but, save for the patch of red paint that fused to and came off on the hammer, the share was unmarked.

When the operation was repeated on one of the German implements the first share was completely shattered, the pieces being scattered about the floor like so much broken crockery. Thinking that possibly the faultiness of this share had been an accident of construction, perhaps of overtempering, the dealer requested the peon to swing upon the second sample. This blow demonstrated that the German implements were not even consistent in their defectiveness, for this share doubled up under the blow and folded lovingly in around the hammer, like a flower going to sleep at night.

The German plow was then swung upon the third sample, and the result was the same. The German plow was then swung upon the fourth sample, and the result was the same. The German plow was then swung upon the fifth sample, and the result was the same. The German plow was then swung upon the sixth sample, and the result was the same. The German plow was then swung upon the seventh sample, and the result was the same. The German plow was then swung upon the eighth sample, and the result was the same. The German plow was then swung upon the ninth sample, and the result was the same. The German plow was then swung upon the tenth sample, and the result was the same. The German plow was then swung upon the eleventh sample, and the result was the same. The German plow was then swung upon the twelfth sample, and the result was the same. The German plow was then swung upon the thirteenth sample, and the result was the same. The German plow was then swung upon the fourteenth sample, and the result was the same. The German plow was then swung upon the fifteenth sample, and the result was the same. The German plow was then swung upon the sixteenth sample, and the result was the same. The German plow was then swung upon the seventeenth sample, and the result was the same. The German plow was then swung upon the eighteenth sample, and the result was the same. The German plow was then swung upon the nineteenth sample, and the result was the same. The German plow was then swung upon the twentieth sample, and the result was the same. The German plow was then swung upon the twenty-first sample, and the result was the same. The German plow was then swung upon the twenty-second sample, and the result was the same. The German plow was then swung upon the twenty-third sample, and the result was the same. The German plow was then swung upon the twenty-fourth sample, and the result was the same. The German plow was then swung upon the twenty-fifth sample, and the result was the same. The German plow was then swung upon the twenty-sixth sample, and the result was the same. Theaters.

of \$50,000, with a further promise that the Marley stock is to be sold out as soon as possible, the Marleys there- after to leave the country.

OLD SOLDIER DEAD.

Leaving a note telling that he should have stayed at the Fort. He was 80, shot and killed himself. Prescott, in an alleyway, where his body was found, probably a day later than the death. He served in a Colorado cavalry regiment during the Civil War, following his arrival in Germany, and became a resident of this locality as soon as he returned. A married daughter lives in Los Angeles. It is told that the old soldier had brooded over an incident of the war, in which he declared he accidentally killed a young woman while he was on picket duty.

THE WEIGHT OF LIGHTS.

The Sun Exerts on the Earth an Estimated Pressure of Seventy Tons. [London Post.] Both by theory and from experiment we are satisfied that light exerts pressure, and this pressure when exerted on the earth by the sun was calculated by the earth by the sun as amounting to 70,000 tons. This pressure of radiation has lately been used by Prof. Langmuir in illustration of one of the laws which are perceptible in Newtonian mechanics. For example, according to Newton's third law of motion, action and reaction are equal and opposite to each other. In the case of light, the forces created by an electric field do not conform to this law. This is especially evident when radiation occurs.

Suppose that an incandescent lamp is giving off light, that is to say, electro-magnetic radiation, uniformly in all directions. By reason of the symmetry of arrangement of these particles, the forces exerted by the radiation on the source from which it is set out. But if the perturbation, the form of a light wave, assumes an obstacle at a distance, then the obstacle will be subjected to a force due to its absorption of some part of this radiant energy. This pressure of light pushes the obstacles away in the direction in which the light is being propagated, and the action thus exerted on the distant body is not compensated by a reaction appearing at the source or on any other part of the matter. We have thus cases of action without reactions, if matter alone is considered.

It remains to be pointed out that a general way the assumption which arises out of the new mechanics, that the mass of a body varies when it gives out heat or light, does not itself to measurement. For example, if known masses of hydrogen and oxygen are exploded in a closed vessel, the amount of energy is radiated as heat, and the combined masses of the gases. But the calculated decrease in mass is only one five-billionth part of it, and thus entirely too small to measure it.

FRIDAY MORNING, AUGUST 21, 1914. 4 PAGES

PART III

WOLVES TAKE TWO LICKINGS WITHOUT A WORD.

ANGELS WHALE WOLVES TWICE.

Stroud Beaten by One Run in the First.

Second Game Sees Gregory Annihilated.

Hughes Holds Wolverines to Four Hits.

BY HARRY A. WILLIAMS. Papa's athletes were feeling playful yesterday, and pursued their innocent pastimes and gambols all the long afternoon. They seemed to enjoy the party

DREW EQUALS WORLD MARK.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.] PROVIDENCE (R. I.) Aug. 20.—Running in better form than he has ever shown since he started running a few years ago, Howard P. Drew, running under the colors of the Los Angeles Athletic Club, smashed the American record and equaled the world's record for the 120-yard dash at the annual field day games of the Eagles at Crescent Park this afternoon.

Rain made the track a little heavy, but the negro ran the 120 yards in the final heat of 11 3-5 seconds, which broke the American record held by Bernie Weber and equalled the world's record for that distance held by Reggie Walker of South Africa, who made the mark in England in 1909.

GARDENA TENNIS CLUB IS STARTED.

The Gardena Tennis Club is at last launched on the Wood property on Palm avenue, with F. L. Foster, president; R. E. Hall, vice-president; T. T. Gardner, secretary; George A. Tilt, treasurer.

The club has a membership of thirty-six, and among them are some experts at the game. They have fitted up two fine courts, and every afternoon you can see the courts filled with jolly crowds. The following are the members of the tennis club: Miss Loretta Bathrick, Miss Emily Wood, Miss Blanche Towne, Miss Wanschaft, George A. Tilt, Mr. Singen, Mr. and Mrs. T. Gardner, Mr. and Mrs. J. M. Woodruff, Mr. and Mrs. K. T. Hubbell, Mr. and Mrs. F. B. Dwire, Mr. and Mrs. W. C. Thomas, Jr., Mr. and Mrs. W. H. Wood, Mr. and Mrs. George McDermott, Mr. and Mrs. Dan Towne, Mr. and Mrs. E. L. Harter, Mr. and Mrs. S. B. Hall, Mr. and Mrs. William Medland, Mr. and Mrs. Foster, Mr. and Mrs. J. R. Lillard, Mr. and Mrs. Walter Simpson.

JOHNSTON IS ELIMINATED.

W. M. Washburn Beats Player from Coast.

Johnston and Griffin Show Much Class.

McLoughlin and Bundy Will Play Today.

[BY A. P. NIGHT WORK.] SOUTHAMPTON (N. Y.) Aug. 20.—George Peabody Gardner, Jr., and Watson M. Washburn won their places in the semi-final round of the tennis cup singles here today. Washburn, the Harvard star, created an upset by driving so steadily for the lines that he defeated William M. Johnston, the Pacific Coast expert, at 7-5, 6-1, 7-5. Gardner blocked off the chop strokes of Wallace F. Johnson, a member of last year's Davis cup team, winning at 1-4, 6-2, 6-4.

The progress of the doubles brought the pairs up to the round before the semi-finals. The most brilliantly played contests were those in which William M. Johnston and Clarence J. Griffin, the Pacific Coast champions, defeated William J. Clothier and George Peabody Gardner, Jr., 6-4, 2-6, 6-4. In the earlier games Griffin was unsteady. He more than made up for it in the final matches, however, as his smashing drives against Clothier scored the points. In the final games Gardner and Clothier were four times within a stroke of bringing the games to decide when Griffin's crossing shots carried the victory. Norman E. Brookes and William A. Larned also took the court against William Bufum and Frederick North. The youngsters seemed overawed by their opponents, with the result that the famous Australasian and American combination won at 6-1, 6-4. Maurice E. McLoughlin and Thomas C. Bundy are scheduled to play tomorrow against Nathaniel W. Niles and Alfred S. Dabney in the semi-final round.

GIANT SWORD FISH CAUGHT.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.] AVALON, Aug. 20.—A world's record Marlin sword fish was caught today by W. G. Evans of Denver, Colo., after a battle lasting one hour. The fish weighed 240 pounds and measured eleven feet in length. It was caught on regular Tuna Club tackle. Mr. Evans beats the former record held by C. G. Conn and Col. J. E. Stearns by one pound.

NAP RUCKER IS WORKING ON ARM.

EX-DODGER MAKING DESPERATE EFFORTS TO GET WING INTO SHAPE.

Nap Rucker is making a last desperate try for his arm. He is taking treatment from a New York specialist and the next month will determine whether he can ever pitch again. However successful the treatment may be, he is not likely to be of much use this season.

ELGIN RACES START TODAY.

Twenty-five Drivers Ready for the Event.

Fred Wagner to Start Race This Morning.

International Element Is Entered.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.] CHICAGO, Aug. 20.—The stage is all set for the greatest outdoor gasoline and castor oil exhibit Chicago has ever put over. Down at the ordinarily quiet little city of Elgin twenty-five drivers and, of course, twenty-five racing cars, are waiting for Fred Wagner to give them the flag that will send them on their way in the morning. It is a mad mixture of American, English, French and German cars

much more than their little friends from Sacramento, who continue to play at make-believing they are Wolves.

Our boys found an outlet for their youthful exuberance by playing two pranks on their visiting playmates. The first of these pranks resulted in a score of 4 to 3 for Los Angeles, and the second in a count of 3 to 1.

A HABIT. Getting bumped at both ends of the bargain attraction didn't seem to bother the Wolverines much, receiving bumps having grown to be their favorite outdoor sport.

Both teams made a plentiful use of pitchers in the first game, Ehmeke and Cheek repulsing the Messrs. Stroud and Malarkey.

Long Tom Hughes was the chief prankster in the afterpiece, he disposing of H. W. Gregory and Kido Kremer with neatness and dispatch, and yielding only four hits. Tom told 'em before the game that they could have just four, and stuck to it.

All this prankishness has resulted in much closeness in the league race, there now being such propinquity among Venice, San Francisco and

(Continued on Fourth Page.)

REDS HIRE A MAN TO CRAB.

Few people have heard of Mullaney. Yet Mullaney is a valuable member of the Cincinnati team.

Mullaney is used for the sole purpose of having words to say with umpires. When there is any chance of starting something, Mullaney dashes out and yells: "Aw, come off that! What's the matter with you?" He is expected to get fined or draw a suspension. That's what he is hired for. If he didn't get chased once or twice a week he wouldn't be earning his money. He relieves Herzog of a part of his burden.

SMALL FIELDS AFTER PRIZES.

INTERESTING RACING IN SPITE OF THE SCARCITY OF ENTRIES.

[BY A. P. NIGHT WORK.] PITTSBURGH, Aug. 20.—Small fields and interesting racing marked today's programme of the Grand Circuit meeting on the Bruno's Island track. Only three horses faced the start for the Iron City, valued at \$2000, and for the free-for-all pace, valued at \$1000.

The feature event of the card, the Ft. Pitt at 2:10 pace, valued at \$2000, was captured by Peter Stevens in four heats after King Coughman, owing to a good start, had taken the first heat. Lasse McGregor had no trouble winning the Iron City, a 2:13 trot, and Frank Bogash, Jr., took the free-for-all. May Mac had no difficulty in taking the 2:09 trot, valued at \$1000, in straight heats.

SUMMARY. 2:00 trotting, purse \$1000. May Mac, h.s., by Arthur Wilkes (Derry) 2:09.4. Lasse McGregor, h.s. (McGowan) 2:11.4. Frank Bogash, Jr., h.s. (McGowan) 2:12.4. JEFF SMITH IN 'FRISCO WANTS TO BATTLE CHIP.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.] SAN FRANCISCO, Aug. 20.—Jeff Smith, recognized in the Antipodes and France as the middleweight champion of the world, arrived in San Francisco from Australia on the steamer Sonoma today. He was accompanied by his manager, Al Lippe. They have concluded a successful tour of the world, which included bouts in Paris, London and Australia, and are on their way back to New York, Smith's home.

GOING BACK. The New Yorker has been signed by Snowy Baker for a return series of three bouts, and will depart for Australia inside of a couple of months. Manager Lippe explains that he would be willing to stage Jeff Smith in a bout here if inducements were right. Undoubtedly Promoter Coff-

roth will talk match with Smith for the winner of the Murray-Chip, contest here next month. Manager Lippe advances a good argument in behalf of Smith's claim as the middleweight champion of the world. "Jeff has defeated every prominent middleweight now before the public," he declares. "In his bouts in Australia Smith won decisively from Tom McGorty, Pat Bradley and Clabby. There was only one writer who disputed the victory over Clabby; the others were unanimous that Jeff won."

"Before departing on the trip around the world Smith won a fifteen-round decision over Chip at Providence, R. I. He defeated Clabby and Mike Gibbons in ten-round no-decision bouts in New York. We have the clippings and records to prove our claim, and I cannot see how they can be disputed."

that the pilots will use in their chase for the ordinary purse and the unobtainable trophy donated by the Chicago Automobile Club. Individual chances favor the Kaiser, for Ralph de Palma is to be at the wheel of the Mercedes which he brought from the Fatherland just in time to escape the big upheaval. The car was a wonder in the last French grand prize, and we all know what De Palma can do with any sort of a mount.

Ralph Mulford and Bob Burman are expected to uphold the tricolor in their French Peugeot, while Harry Grant and our own Gaston Maurice will be at the helms on the English Sunbeams. Quite a cosmopolitan gathering, what!

B. Oldfield, well-known Los Angeles retail merchant prince, is up in the van of American drivers. Along with Gil Anderson, the vet will try and add luster to the name of Stutz, and the Stutz is favorite of all the home-machined cars. Baron Rickenbacher, hero of the recent title gathering at Sioux City, is also up on one of the home products, and since he showed the way at Iowa burg the baron is conceded more than an outside chance with his Deussenberg. Ted Telford and Billy Carlson are getting

(Continued on Fourth Page.)

EVERY DAY TAKES OFF ONE

Of your chances for getting the benefit of the great reduction in round trip fares to Eastern points. Quite a number of dates during August and up to September 11th; then off they go for this season. Return limit is October 31st, and you may return via an entirely different route, if you wish, without extra charge.

Tickets are sold to many points from Salt Lake City to the Atlantic Coast, and to Detroit, Mich., on certain days in August for G.A.R. Encampment.

If you have not had a vacation why not go to Yellowstone or Glacier Parks?

Get a booklet at a Salt Lake Route office and study upon these Wonderslands.

You will be so busy next year with the exhibitions and the great crowds of people here that you won't have time to go anywhere.

DO IT NOW

## SEALS CAPTURE WOOLLY SESSION.

Spec Harkness in Row With Team Mates.

Early Seal Lead Overcome by Venetians.

Only to Lose It After All in the Ninth.

(BY HERBERT WHELAN, EXCLUSIVE DISPATCHER.)  
SAN FRANCISCO, Aug. 30.—An open meeting against "Spec" Harkness and a four-run lead for the Seals in the early innings, a blow-out by the home guard and the subsequent wobbly playing by the home guard and finally a thrilling ninth-inning rally were staged in rapid succession on the Oakland lot today for the edition of a large gathering of fans.

Besides Harkness, Decanniere and Hinesley were trotted out on the firing line and the Seals were forced to call on Baum for assistance. The final score was: San Francisco, 6; Venice, 1.

**WAR IN CAMP.**  
At the jump-off there was an open rupture between Harkness and a couple of members of the Venice club. Elliott was jawing at the pitcher, who in turn shot some fire at the catcher. The ball was thrown around with great force, and it was evident that the best of feeling did not prevail. When the ball was thrown to first, Borton heaved it back at "Spec" and words were passed between them.

The cause was the early lead which the Seals acquired. Fitzgerald shot a safety over short and by fast springing stretched it into a double. O'Leary sacrificed, and Schaller brought Fitz home with an infield hit along third. Harkness continued matters by heaving wild to first on the play and "Burt" reached third. "Spec" fanned Downes, and made Mundorf ground out to short.

**SEAL TALLIES.**  
In the fourth Downes' single, Mundorf's sacrifice and Harkness' neat single to left on the hit-and-run play tallied another. In the sixth, two more were secured. O'Leary singled to deep short, and Schaller sacrificed. "Patsy" stole third while Harkness slumbered. Downes fanned, but Mundorf doubled to left to count O'Leary. Howard followed with a wallop to right. Bayless' peg had Mundorf nailed by feet, but Elliott dropped the ball and the fourth run was run up.

With four runs in the seventh, Singles to center by Harkness, Carls and Leard hit the bases. "Spec" came home while Kane was forcing Leard at second, and Bayless' single through O'Leary tallied Carls.

**LEFTY YANKED.**  
That was two runs, and when Borton singled in the eighth and McArde was walked, Leifield was removed. Elliott's grounds to first should have been converted into a double play, but Corban fumbled and the bases were full on one out. Mealon, batting for Harkness, lifted a long fly to right on which Borton scored. Fitzgerald made the mistake of throwing to third instead of second and all the runners moved up. Chase followed with a short single to center on which McArde and Elliott scored.

Coming from behind, the Seals went out with three healthy swats before a man was out. Corban doubled to left as a starter, and Schmidt drove him home to tie the score with a triple. Sepulveda was brought forth as a pinch hitter for Baum. Right here Bayless issued the recall for Decanniere and substituted Henley. Howard then batted himself by sending in Colligan to bat for Sepulveda. Colligan snapped a single to center and the game was over.

**THE SCORE:**

VENICE	AB	R	E	P	O	A	E
Colligan, 2d	4	1	0	0	0	0	0
Leard, 1b	4	1	0	0	0	0	0

# "MARTIN EDEN" INTERESTING.

But the Climax Seems a Bit Queer.

"Let's Get Married," Suggests Morosco.

Other Gossip Floating Down the Pike.

BY GRACE KINGSLEY.

An audience of luxe of smart society folk viewed the premiere of Robert Bosworth's six-reel production of Jack London's "Martin Eden" in the auditorium of the L. A. Athletic Club, last evening.

Thinly disguised in spots, in others (it must be admitted), highly idealized, the piece is the story of Jack London's own life. Viewed in this light the play is of absorbing interest, and it is hard to tell how one would view it, seen from a less interesting standpoint. It is excellently well-played.

The rough days of the hero's youth, his trip to foreign lands, the romantic meeting with Ruth, his sweet heart, and inspiration, the awakening to high ideals, the days of his poverty and discouragement in his writing, the "disappearance" of a manuscript, and his gradual rise to fame and fortune are well told, there being also cleverly interpolated the boy's awakening to interest in socialistic ideals.

But the faithfulness of his sweet heart turns happiness to sorrow, and after having rewarded all his old friends with automobiles, houses and shares in a steam laundry, according to their desires and their several stations in life, he betakes himself away to some vague place known as "south-sea seas."

On the way over sea, overcome by his remembrance of his struggles for the girl he loves, and her final disavowal of him, he seeks a dramatic death by drowning.

This seems to us the only really incongruous note in the play. A young man, full of good health and fortune, bound for a land he loves, will hardly seek death, even if some girl has sent him to the right-about, and it is rather absurd to see the healthy, wholesome young man swing himself into the sea quite as if he were dropping himself for a swim.

However, the piece is bound to hold audiences to the end. Vivid life interest is there; the scenes shown are beautiful. Much of the credit is due the author for suggesting, rather than playing out, the obvious things. It is a move in the right direction, which may well be copied by other photo-authors.

**A Suggestion.**  
"Let's Get Married" is the proposition with which the Morosco, after its brief vacation, will open early in September. It is a Gaiety production. The play is strictly home-brewed. Walker Lawrence, who has been collaborating with Miss Josephine Thompson, a popular young composer of Los Angeles, the author of the popular song, "I Have a Handmade Bag of Flour," composed the music, which is said to be catchily tuneful.

Rehearsals begin at the Morosco today. Sam Fox has already taken off his coat and gone to work. It is announced that for splendor of costumes and the obvious things, the play has not been excelled in any of the Gaiety pieces. A big chorus is being engaged, and all the dear little chorus thirty-sizes in town, will form in a procession in front of the Morosco today.

The cast will include Walter Lawrence, Frances Cameron, Louise Orth, Jack Pollard and others.

**Some Hunter.**  
Jim Corrigan returned from his vacation yesterday. He got two deer. Got them at the seashore. One of them was the young one, Corrigan says, and the other the oldest. They had a great time.

**Fire Shooting.**  
Farrest Stanley of the Burbank has returned from his hunting trip, with his red shirt stained with the great American flag act. "Had a great time hunting up in Grass Valley," said Stanley. "No, I couldn't say we shot anything exactly. We did circle around and fire at a little young Ford that we saw eating up gasoline, but we missed even that. On the way home we saw our first deer. But we didn't shoot at it. Why? Chiefly because it was already dead. Also two other fellows owned it and were carrying it home. But we had a good time, and the nightman lane looks pretty good to us again."

**Considine Here.**  
John Considine, former head of the Sullivan-Considine circuit, arrived in Los Angeles yesterday on a pleasure trip, and called on Manager Fish for a few moments. He announces no plans for the immediate future.

**Dutchman.**  
Dr. Anspacher, author of "His Son" at the Burbank, and Henry Kolker, playing the part of the old German father, are great friends. Both also are of German descent. Together they studied out the details of the characterization, resulting in the sincerity and subtlety of portrayal, which Mr. Kolker gives his impersonation.

**Trixie Likes Movies.**  
Trixie Frizanna goes to Catalina next Monday for a few days. She says she's going to forget there's such a thing as a chin, beauty, merely put a dull finish on her nose and be a sincere, sunflower. Also, the idea of those glass-bottomed boats so fascinating her that she's going to charter one to take her round the island. We hope she'll change her mind, though. It's pretty stormy over on the other side. And there's but one Trixie.

**Bill Stormer.** The picture producer who took her in film for the Auto Club, has been following the comedienne about, loaded with a moving-picture contract.

"Too hard work," says Trixie. "I don't have to. But I'm beginning to love this country by the pond, and

Miss Kathryn Williams, Who appears in the "Spoilers" at Clune's Auditorium.

I'm afraid I stay some of those lovely foothill studies will get me.

"Man on the Box."

On account of the demand of hundreds of people to see Max Fikman in "The Man on the Box" at Tally's, the Alhambra Theater will open Monday with the piece as the principal attraction.

When the picture was shown at the Strand Theater in New York a few weeks ago it was declared by the critics to be as funny as the play in the flesh. Max Fikman and Lolita Robinson both appear at their best.

Part Three of the "Trey of Hearts" will also be shown.

**A Favorite.**

A little Los Angeles girl plays a unique role in "The Mystic Pool," the spectacular show to go on at the Hippodrome next week. She is Halie Manning, who became so popular here as a member of Pop Fischer's company at the Lyceum. She appears as "Echo," but drops the role long enough to introduce a song and dance that will be like old times.

**Much Scenery.**

Carloads of scenery are being brought to the Hippodrome this week. There are to be Greek ruins, mysterious inhabited trees, alluring grottoes, a bay of water nymphs, and other interesting "props."

**Little Theater.**

The following schedule of feature motion-picture dramas has been arranged for by Manager Frank C. Egan of the Little Theater: "Hearts Adrift" (Mary Pickford), August 22-23; "Brewster's Millions," August 24-25; "Heart of Midlothian," August 27-28; "Ring and the Man," August 29-30; "Valley of the Moon" (Myrtle Steadman), August 31 and September 1 and 2.

**Warfield Returning.**

Dave Warfield is in England, but he is going to come home to spend Christmas with his mother in San Francisco, if he has to charter a battleship, so he writes Manager Wyatt of the Mason.

**What, Again?**

Marjorie Rambeau and Willard Mack have agreed to disagree, and be divorced, according to recent rumors. Nobody knows the name of "Exhibit A," nor whether "Exhibit B" be masculine or feminine.

**Brave Laddie.**

Laddie Cluff, the English vaudeville, who made such a hit here a few weeks ago at the Orpheum, has gone back home to join the army.

**Hot News.**

The salaries in English variety theaters are being cut, according to recent advices. Also German artists in England must have their photos on their passport, carry no arms, or travel over five hours.

## Angels Whale Wolves.

(Continued from First Page.)

Los Angeles that the three municipalities could be blanketed with a postage stamp.

**REAL SPEED.**  
Both films were unequalled with commendable alacrity. The first game went, but 1h and 47m, and the second whizzed by in 1h and 23m. During the intermission the usual pains, rations were served to the ladies and gents, while some, who craved a change of diet, went down to the cove and bought baked beans and egg sandwiches. Everything considered, it was a gala crowd.

All of the opening game that amounted to anything was played in the first five innings. Two runs were scored off Stroud in the third, and the same number in the fourth. Immediately after that the sailor got on an even keel, and held the home bodies to one hit, but the necessary damage had been committed. He was yanked that Wolverton might be for him in the eighth, and Bill Malarsky finished the schedule.

**EHMKKE YANKED.**

Ehmkke was touched for a tally in the third and two in the fifth. He was ordered to the rear after the Wolverines had plugged up the sacks on him in the sixth. The veteran Check promptly halted Sacramento's forward movement, and kept it in a halted condition clear down to the bitter end.

Walt Boles discharged the first effective shot in the third, he caroming a shell off Stroud's well-known foot into left field. Ehmkke singled to center, which seemed to be a favorite spot of his. Boles going to second, and Ehmkke romped right around to the plate when John saw a single into left. At this point, sympathizing friends assisted Gregory to the base line. Broke and Hughes were unable to molest Kremet.

Singles by Walter and Ellis, and whizzing doubles by the other side of Harper gave the Angels three in the third. It also exhausted their ammunition.

"We had that we can't keep Sacramento here for a couple of weeks."

The score:

## Public Service: City Hall, Courts.

## SUMMARY OF THE DAY.

The Board of Public Utilities has published its fourth annual report, full of interesting statistics on public utilities, and showing that vast sums are saved to the ratepayer by supervision of public service rates by the commission.

The Board of Public Works, after three times advertising for sixteen mules for the street department, has decided to solve its troubles by transferring mules from the aqueduct department to the street department.

Officers sent to recover architect drawings from the residence of Rev. Oscar Haas, pastor of a spiritualist church, found a secret room which contained queer articles supposed to have been used in seances, and two trunks full of other paraphernalia.

At the City Hall.

IT COSTS MUCH, SAVES MORE.

PUBLIC UTILITIES BOARD SHOWS SAVINGS BY ITS RATES.

Says Entire Expense for Its Maintenance Is Not Only Offset but Largely Exceeded by Supervision of Public Service Charges—Interesting Data in Report.

The fourth annual report of the Department of Public Utilities has just been issued by the board. It contains a vast amount of statistical information as to public utilities in Los Angeles and the general work of the commission. There are many diagrams and tables, showing extensive and comprehensive preparation on the part of the compilers.

One of the interesting features is that showing the cost to the municipality of the maintenance of the department and the saving to citizens that has been accomplished by its supervision of rates and general public service.

The total cost of maintenance since the institution of the commission in 1910 to the close of the last fiscal year was \$2,689,66. By years this expense has run as follows: In 1910, \$778,67; in 1911, \$28,401.38; in 1912, \$25,125.14; in 1913, \$25,491.17.

In 1914 a special valuation of the Los Angeles Railway was made, this requiring \$3,000 of the expenditures for that year.

The total cumulative savings by reduction in rates fixed by the board is placed at \$1,950,687. By years this is segregated as follows: For the fiscal year of 1910-11, \$184,647; for the fiscal year of 1911-12, \$641,490; for the fiscal year of 1912-13, \$1,025,549.

"It is to be noted," says the report, "that during the period the Board of Public Utilities has been in operation the entire expense for its maintenance is not only offset by saving to rate payers in reduction of rate, but in addition there has been a net saving to the community of \$1,950,687.44. In other words, the per cent. of cost to secure each dollar's saving has been less than 5 per cent. (4.99). The per cent. of profit on the investment is about 2004 per cent."

In discussion of the traffic congestion problems the report contains the suggestion of its railroad engineer, Charles K. Mohler, as to some reasonably effective means of relief that may be applied. These include the following:

(1.) Opening New High street into Broadway from its intersection with Franklin to about the alley back of the Times building, north of First street. New High could very well be widened from a sixty-foot to an eighty or possibly a 100-foot street, to give an additional low-grade street for an outlet to the north.

(2.) A tunnel to provide for street car traffic should be cut through the hill on First street. In this connection the grade should be reduced on West First street so that the standard equipment of the Los Angeles Railway can be operated through to the west and northwest city limits.

(3.) An additional outlet to the west could be had by opening Fifth street through from Main street to Boylston and a diagonal connection made a short distance west of Boylston from Fifth to Sixth streets. On account of the logs and bad grades on Sixth street from Figueroa to Bixel it does not form a normal traffic street. The improvement and opening of Fifth street would properly require the construction of a viaduct crossing several streets.

As if the franchisees are granted for the outside tracks, which are already in use, the work of changing the grade of all four tracks could be accomplished at one time and with less expense.

The order of the Board of Public Works to have the tracks lowered to street grade was made following its order on June 13, requiring the Pacific Electric to apply for a franchise to legalize the existing outside tracks of the four-track system.

SIMPLE SOLUTION. MULES FROM AQUEDUCT. The Board of Public Works decided some time ago that it needed sixteen mules for the street department. It advertised for bids, but received none. It advertised again, but not a single bid was forthcoming. For the third time it advertised its wants, and there was talk about the scarcity of mules and their being held for shipment to the European war fields.

The last time the advertisements brought forth two bids. One was from Hales & Miller, offering mules for \$215 each. The other was from J. R. Deffebach, offering the animals for \$244.

Then, after all this trouble and red tape the board yesterday decided to reject all bids. An easy way to secure the mules was proposed by Commissioner Osborne. He suggested that the required sixteen mules be simply transferred from the aqueduct department to the street department, and the city Council was asked to authorize the transfer.

At present all the mules remaining in the possession of the aqueduct bureau are used on aqueduct power work, but some of them can be spared for the street department.

CITY HALL BREVITIES. The Harbor Commission at yesterday's session approved the plans and specifications for the paving of Canal street and Water street, Wilmington, from Front street to the waterfront, to connect with the municipal harbor. Bids for this work will be opened by the commission on August 21.

The Harbor Commission yesterday made an appropriation of \$300 for the expenses of Dr. John P. Gilmer, a member of the commission, on his trip to Baltimore to represent the Los Angeles Harbor at the annual meeting of Port Authorities. Dr. Gilmer will also visit New York in connection with his business.

Several city officials will attend the meeting of the Teamsters' Benevolent Association tomorrow night in a ballroom at the Hotel California. This association is composed of men in the street department.

The Board of Public Works has granted the Auto Club of Southern California permission to place signs, 18x12 inches, at various street intersections to help in guiding motorists in and out of the city.

The city has entered into a contract with William and Charles Stinson, whereby the latter are to furnish for the City Hall and the new Hotel building adjoining, which is leased by the city, hydraulic power, steam and electric energy for a period of three years. The steam plant in the City Hall has been decided best to secure electric and heating service for both buildings from an outside source.

## At the Courthouse.

## SECRET RECESS; SPOOK OUTFIT.

OFFICER FINDS QUEER THINGS IN "PASTOR'S" HOME.

Panel Manipulated by Concealed Wires Gives on Crypt Filled With Articles Used in Seances—Owner in Jail Under Large Bail, Charged With Fraud.

A china closet concealing a panel, which, when manipulated by wires cunningly concealed, revealed a secret recess, was the discovery made by officers at the home of Rev. Oscar Haas, No. 1169 West Thirty-seventh street, to recover two architectural drawings in a replevin action. A messenger sent from the office of Attorney Clyde Cate, representing W. J. Dodd, the architect who made the drawings, to this report upon his return from the Haas residence.

While the discovery of a secret recess amazed the officers, what they found in the recess was still more amazing. There were two bird cages, fishing poles and other articles in the recess. Bids for this work will be opened by the commission on August 21.

The mystery was apparent when it was learned that the Rev. Oscar Haas is a spiritualist and probably used the paraphernalia in seances. It cleared up completely in connection with his arrest for obtaining money under false pretenses. He is now at the County Jail unable to give \$100,000 bonds in two charges against him. One Mrs. I. Schaad, who gave him \$5000 to invest in land at Riverside. She alleges that Rev. Haas told her he had received a message from her late husband, who has been dead for thirty-five years, advising her to invest her money with him.

The second complaint was sworn out by Mrs. Flynn, who alleges she was swindled in the land scheme. Rev. Mr. Haas was arrested July 25, last, on the charge of Mrs. Schaad. The architect's pictures are said to have played an important part in the alleged swindling operation conducted by Rev. Mr. Haas. They represented a \$100,000 bond, which it was proposed to build on the land sold to the investors. The architectural pictures drawn in good faith by the architect who has brought suit to recover the cost of producing them.

SORDID STORY. IN DIVORCE COMPLAINT. Cruelty and non-support are the allegations in the divorce complaint filed by Mrs. Grace S. Carne against Reginald G. R. Carne through Attorney H. A. Barclay yesterday. Mrs. Carne came from Chicago to Hollywood in 1912, where she made her home. The alleged acts of cruelty are plentifully sprinkled throughout the complaint.

Her marriage at River Forest, near Chicago, in 1898, was quite an event, but when the children came she complains that her mother and father, and by his alleged intoxication finally brought about a nervous breakdown.

She says that Mr. Carne has an interest in his father's estate at Oak Park, Chicago, and owns property in Ventura county, all of which was acquired after their marriage and is estimated to be worth \$20,000. In order to meet household expenses, she alleges that he was compelled to sell her jewelry, furniture and valuable inherited from her mother. The couple have three children, Sturges, Alice and John.

SENSATIONAL CASE. SUBMITTED TO COURT. The Rayner-Genshies suit, involving the alleged duplicity of a daughter, Helen, was submitted to Judge Jackson yesterday after a trial of three weeks. The daughter, Helen May Rayner Genshies, who is alleged to have obtained from her mother, Mrs. Maggie Rayner, deeds to property in this county and San Diego valued at \$100,000, and the trial of the case marked the passing away of Mrs. Rayner. Her friends are in the hands of A. F. MacDonald, guardian.

Among the exhibits are many letters written by the daughter to her mother while the former was married. These tell of her success in giving aid and advice to clients, attributing her success to the effect of prayer. In one letter she writes that "wealthy man wanted to marry her and take her on a trip around the world."

## Alexander Hamilton

## John Jacob Astor

## Henry Ward Beecher

## J. P. Morgan

DO YOU KNOW THESE NAMES? You do, of course — as well as the following: Frederick Loeser; Henry H. Rogers; Isidor Straus; Chas. Tiffany; Cornelius Vanderbilt; Johns Hopkins; Henry James; J. Lathrop Stanford; Marshall Field; Benjamin Harrison; Stephen Girard; P. T. Barnum; Mark Twain; Julia Ward Howe; and Harriet Beecher Stowe.

These prominent personages, as well as thousands of others, trusted their property by Will. When men and women of world-wide note appoint Trust Companies as Executors of all or parts of their Estates, the inference is clear: a competent Trust Company is the logical Executor to choose.

Let our Trust Officers advise you about the preparation of your Will.

property in Oklahoma, which he alleged had been misappropriated. Judge H. W. Linn was in court looking for a dying man. The trip was at the cost of physical discomfort and his recent illness showed plainly. He said he made the trade in 1913, and a year later discovered the Oklahoma property was worth a great deal less than represented.

COUNT PARAGRAPHES. PROCEEDINGS IN BRIEF. QUIET TITLE SUIT. The City of Venice claims 800 feet on the ocean front for park purposes. This land, valued at approximately \$50,000, is alleged by the Short Line Beach Land Company to belong to the corporation by virtue of accretion. In order to determine ownership the corporation filed a quiet title suit yesterday, naming the City of Venice and others defendants.

ASKS ACCOUNTING. A. G. Ritter, administrator of the estate of William Hill, is seeking an accounting for full expressions on the question of State prohibition. The letter states that if it is the desire of its membership it will inaugurate a campaign in this county against the liquor amendment, and adds that in this connection it is guided solely by the commercial interests of the county and not by any particular class of business.

UNDELIVERED TELEGRAMS. There are telegrams at the Western Union for Mrs. N. L. Allen, James P. Barton, Mrs. Charles Balingbrooke, Ruth Broucher, W. L. Burt, R. Conklin, Leo F. Fornes, William A. Gibson, Phil Harris, Mrs. Ailie E. Hammett, C. L. Leum, J. D. Newman, Lucius M. Pine, Lena Robbins, H. N. Bong, George Shortly, Miss Jean Vogt, J. W. Wright; at the Postal for P. G. McWhinney, Mrs. G. Y. Coleman, Milton Merwin, F. J. Ewart (cable) Mc-Caw.

ANNULMENT SUIT. In a complaint filed yesterday for the annulment of her marriage, Mrs. Constance Colvin sued Mr. Colvin. Mrs. Colvin, who is alleged to have obtained from her mother, Mrs. Maggie Rayner, deeds to property in this county and San Diego valued at \$100,000, and the trial of the case marked the passing away of Mrs. Rayner. Her friends are in the hands of A. F. MacDonald, guardian.

INCORPORATIONS. San Dimas Gas and Electric Company John Cubbon, O. L. Halse, D. N. Kelly, William O. Lutz, E. W. Rittler, capital stock \$50,000, subscribed \$500; Fish-back-Poland Manufacturing Company, Incorporated, Fishback and Cora Pitch, capital stock \$25,000, subscribed \$1; Atlantic Transfer Company, Incorporated, E. O. Kinney, Bert C. Hiner and N. R. Rutherford, capital stock \$10,000, subscribed \$10,000; Crown City Film Manufacturing Company, Incorporated, M. E. Spero, D. E. Bard, A. C. Bard, H. Silverman, Frank Joseph, H. Duval and Norman Smith, capital stock \$200,000, subscribed \$7; The Electric Laundry Company, Incorporated, A. N. Davidson, George H. Lettau, Adie M. Davidson, M. J. Conway and Mary M. Lettau, capital stock \$50,000, subscribed \$500.

LARSEN HERE FOR SENTENCE. Louis A. Larsen, convicted of having murdered his wife in the Verdugo Hills, June 22, 1913, arrived in Los Angeles yesterday from San Quentin to hear sentence of death passed upon him for the second time. His appeal to the Supreme Court was recently denied and the original death sentence for his execution had passed he was brought back and will be resentence today by Judge Craig.
